

Coffee Talk

Social Media

Topic: Social Media

Grades: PK-8th

Date: December 13th 2016

Time: 8:00am

Place: Social Hall

This coffee talk is being presented by Jessica Gilstrap, LMHC and Brian Krause, MA from Gilstrap and Associates. They will discuss how social media is being used today, the difference between how boys and girls use social media, and what roles parents play when it comes to social media and their children. This will help parents better understand why boys use social media and why girls use it, as well as how social media plays a role in their lives. Jessica will also provide many parent resources to keep parents informed on things they need to be aware of and information that can be useful to parents. I look forward to seeing those of you that can attend. Coffee and breakfast treats will be provided for you! We encourage parents to attend so that they can ask questions and be well informed. For those that cannot attend the coffee talk, the information will be posted on the counselor's corner page so that that it can be available for those that could not make the event.
